### **DETAILED ACTION**

1. This Office Action is a response to the Appeal Brief filed 11/27/06. Claims 1-43 are pending in the application. The arguments in the brief have been carefully reviewed in view of the Office Action and the applied. They have also been reconsidered in view of the newly found references listed in the below section. The arguments are persuasive resulting in this Office Action.

#### ***Allowable Subject Matter***

2. Claims 1-41 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art of record, considered individually or in combination and in view of the outstanding arguments in the brief filed 12/27/06, render the claimed invention novel over the applied and newfound art of record. The claimed limitations of "*transmitting a message from the MN to the WLAN for use by the cellular network, the message comprising information for use in establishing at least one access bearer with the cellular network for an ongoing packet data session of the MN being conducted through the WLAN,*" structurally and functionally interconnected with other limitations and commonly recited in claims 1-43 are novel in view of the outstanding arguments in the brief filed 12/27/06.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
